Sarah,

The Local Landfill is a proper noun and should be capitalized.

Andy

Hi Jenny,

Thanks your comments, both before and after our presentation! Just to clarify, my understanding was that there was a Local Landfill (the actual name of the landfill, not just a nearby landfill) owned by DuPont/Chemours that was located very close to Washington Works, so I thought that would be a proper noun. It seems like I'm mistaken though so I will gladly change it from a proper noun to a common noun without a capitalized name.

Also, great point on the maps. I've seen them so much that I've lost much of my objectivity so another perspective is always helpful.

Thanks!

Best,

Sarah Lanier

Hi Theresa, Sarah, and Marina,

Good presentation and great work! Thank you for giving it to us today.

I have a very minor comment. On the slide where you talk about landfills, the word local needs to be small.

Also, please don't forget to change the concentric blue circles to a brighter blue so they can be differentiated from the gray.

Great job again,
Jenny
